

Ending  
the  
HIV  
Epidemic

## Coming Soon! Routine Testing in Clinical Settings: A Webinar Series to Showcase Partnerships that Maximize Opt-out HIV Screening

More than 160,000 Americans are unaware they are living with HIV. Diagnosing HIV is critical to the success of the Ending the HIV Epidemic in America initiative (EHE). The goal of this three-part webinar series is to promote models of clinical sites partnering with health departments to support opt-out screening. We will show (by example) how successful working relationships impacted testing outcomes.

**Save the date! Webinar 1 / Wednesday November 30, 2022**

**Implementing State Legislation and Public Health Recommendations at Clinical Sites – A Partnership Effort Between a City Department of Public Health and a University Health System**

**Save the date! Webinar 2 / Wednesday December 7, 2022**

**A Healthcare Clinic's Work with a State Department of Health to Change Policy to Sustain Clinical Opt-out HIV Testing – A Case Study of a Long-time Partnership**

**Save the date! Webinar 3 / Wednesday December 14, 2022**

**HIV Testing in Emergency Rooms – A Public Health Initiative to Improve Early HIV Detection and Linkage to Care**

**NO registration required! Copy the Zoom links below to your calendar and join us to learn how your team can maximize opt-out HIV screening.**
