## **Key Resources for Peer Supervisors**

## **NYSDOH AIDS Institute Peer Certification Page**

https://www.hivtrainingny.org/Home/PeerCertification

This page includes a number of key resources for peers and supervisors, including:

- Peer Supervisor FAQ
- Core Competencies for each certification track
- Course Tracker Forms for each track
- Information about the Benefits Counseling Pilot Project
- Peer Certification Code of Ethics
- Supervisor Evaluation

## **Leadership Training Institute (LTI)**

LTI is a program at CAI that offers a range of capacity building programs for peers and supervisors, including:

- A Training for Supervisors, and Managers, and Directors, for those who supervise peers pursuing certification;
- A foundational health and wellness training for peers who are just beginning the
  peer certification process. Although this and other Foundational programs are
  not required for certification, they offer peers skills in self-management of
  chronic conditions and maintaining a professional demeanor. (For more
  information on other Foundational Training Programs, visit the <a href="NYSDOH AIDS">NYSDOH AIDS</a>
  Institute Approved Foundational Programs page);
- A mentorship training for peers who are interested in mentoring and developing other peer workers.

For more information, contact <u>Tyrone Banister</u>, project manager or visit the <u>LTI website</u>.

## **Supervisor Evaluation, PDF Version**

The online version of the evaluation can be viewed on the <u>AIDS Institute website</u>. This is what gets submitted to the AIDS Institute at the end of the practicum to fulfill part of the peer's certification requirements. However, supervisors can use this <u>downloadable</u> <u>evaluation form (340 KB PDF)</u> with the peer at several points during the practicum as a supervision and professional development tool. <u>Download a guide to using the evaluation tool (230 KB PDF)</u>.
